FAQ

Q: What kind of charger should we use for the speaker?

A: While all common USB-C chargers can be used, we suggest 5V/2A or above 2A.

Q: What if there is noise or discontinuous sound during playback?

A: Normal range of the bluetooth speaker is 30ft with a clear unobstructed path. Please check if the speaker is within range with a clear path.

Q: Why did the speaker power off automatically without the Bluetooth disconnecting?

A: If the speaker is not paired for longer than 10min, it will automatically turn off.

Q: Why does the speaker not connect to the once-paired phone or device?

A: Remove BT-200 from your Bluetooth Device List then restart pairing (pg 1-3).

Q: What is the start up mode of the speaker?

A: Default mode is Bluetooth.

Q: Why will the speaker not power up?

A: Plug in the charger and rebuy in a few minutes or try to long press the power button for 10-30 seconds to force reset.

IMPORTANT SAFETY INSTRUCTIONS:

- Do not percutaneously disassemble or repair this speaker, otherwise it may cause product damage or personal injury.
- Do not use the speaker in dusty, humid, dry, or high-temperature environment.
- Do not place this speaker near a heat source, in direct sunlight, in a dusty area or on vibrating surface.
- In order to reduce the risk of fire, please do not cover this speaker while in use (newspapers, tablecloths, curtains etc.).
- This speaker is rated IPX7, please do not exceed the nominal parameters (submerged up to 1 meter of water for 30 minutes).
- When any part of the product is damaged, such as the power cord, plug, liquid entering into or an object falling onto the device, and is unable to operate normally or falls, it must be repaired.
- When the product is fully charged, do not keep the charger connected for a long period of time.
- The maximum ambient temperature should not exceed 140°F.

*This speaker supports mobile phones and tablet PCs etc.
